Good Afternoon Joe,

We at the drug lab were hoping that the meeting/working group we had discussed at our meeting would be happening soon but we have heard from other people in the building that there is difficulty with this being scheduled b/c of time issues. We have heard this from people not in the drug lab and it is very concerning to all of us that we have had to get this info from people in other departments. How can we go about getting this meeting set up?
